Journal of Hydrology

Contents

Research Papers

Improved estimates of the areal extent of snow cover from AVHRR data
J.J. Simpson, J.R. Stitt and M. Sienko 1

Physical response of a karst drainage basin to flood pulses: example of the Devil's Icebox cave system (Missouri, USA)
T. Halihan, C.M. Wicks and J.F. Engeln 24

Diurnal cycles of evaporation using a two-layer hydrological model
V. Lakshmi and E.F. Wood 37

On the interaction between infiltration and Hortonian runoff
C. Corradini, R. Morbidelli and F. Melone 52

The relationship between the nitrate concentration and hydrology of a small chalk spring; Israel
A. Burg and T.H.E. Heaton 68

Multi-objective global optimization for hydrologic models
P.O. Yapo, H.V. Gupta and S. Sorooshian 83

Water transport in soils as in fractal media
Y. Pachepsky and D. Timlin 98

A quasi-analytical solution for groundwater movement in hillslopes
L.D. Connell, C. Jayatilaka and M. Bailey 108

Abnormal fluid pressures caused be deposition and erosion of sedimentary basins
J.J. Jiao and C. Zheng 124

El Nino/Southern Oscillation and Australian rainfall, streamflow and drought: Links and potential for forecasting
F.H.S. Chiew,, T.C. Piechota, J.A. Dracup and T.A. McMahon 138

Transformation of point rainfall to areal rainfall: Intensity-duration-frequency curves
M. Sivapalan and G. Blöschl 150

Chaotic characteristics of the Southern Oscillation Index time series
A. Kawamura, A.I. McKerchar, R.H. Spigel and K. Jinno 168

A modified Mann-Kendall trend test for autocorrelated data
K.H. Hamed and A. Ramachandra Rao 182

Tracer tests and contaminant transport rates in dual-porosity formations with application to the WIPP
R.W. Ostensen 197

Stochastic sediment transport in soil erosion
I.G. Lisle, C.W. Rose, W.L. Hogarth, P.B. Hairsine, G.C. Sander and J.-Y. Parlange 217

Relating baseflow to catchment properties in south-eastern Australia
G.C. Lacey and R.B. Grayson 231

Baseflow separation based on analytical solutions of the Boussinesq equation
J. Szilagyi and M.B. Parlange 251

The significance of viscosity in density-dependent flow of groundwater
D.U. Ophori 261

Multi-level slug tests in highly permeable formations: 1. Modification of the Springer-Gelhar (SG) model
V.A. Zlotnik and V.L. McGuire 271

Multi-level slug tests in highly permeable formations: 2. Hydraulic conductivity identification, method verification, and field applications
V.A. Zlotnik and V.L. McGuire 283

Discussion

A general lumped parameter model for the interpretation of tracer data and transit time calculation in hydrologic systems Comments
P. Małoszewski and A. Zuber 297

Book Review

Floodplain Processes, M.G. Anderson, D.E. Walling and P.D. Bates 301

Guide for Authors 304
